

## THE EMPOWER PREMIUM PLAN

### THE LAW

As a former attorney, this is something that I take very seriously. I'll provide a clear explanation of your state's schooling laws, detail the steps you need to comply, and connect you with legal support groups for follow up if your plan requires this. I do not provide legal advice, but I can confidently guide you to the right resources so you can have peace of mind.

### ASSESSMENTS AND METHODOLOGY

A variety of assessments will be used to help me create an optimal plan for your student, and allow me to better understand how I can best serve you. Many of our choices will be influenced by these results, such as school choice, delivery method, curriculum choice, specialist selection and more.

### SUPPORT & RESOURCES

I will provide local and online resources to round out your educational experience, no matter what the current situation is in your state.

### ORGANIZATION & IMPLEMENTATION

I'll create a customized education plan so you and your child(ren) know what to do each week. I will also provide suggestions and training for organizational tools that will transform your entire family. If you have older students, they will be trained to take ownership of their own organization and implementation of their classes.

### ACCOUNTABILITY

I have found that the unlimited access you and your child will have to me during the 3 month development and implementation period is invaluable.

Families have the most need during this time, whether it is 'deschooling', implementing the plan, organizing school days, accountability for your older students, or tweaking choices to align with values and goals.
